Journal of Hazardous Materials 46 (1996) 291–292

JOURNAL OF HAZARDOUS MATERIALS

Contents Volume 46

Bioslurry treatment of a soil contaminated with low concentrations of total petroleum hydrocarbons
M.E. Zappi, B.A. Rogers, C.L. Teeter, D. Gunnison and R. Bajpai (Vicksburg, MS, USA) 1

Chemical treatment of spent carbon liners used in the electrolytic production of aluminum
A.L. Pulvirenti, C.W. Mastropietro, A. Barkatt (Washington, DC, USA) and S.M. Finger (Columbia, MD, USA) 13

A microemulsification approach for removing organolead and gasoline from contaminated soil
Y. Ouyang, R.S. Mansell and R.D. Rhue (Gainesville, FL, USA) 23

A kinetic study of metal ion binding by biomass immobilized in polymers
U.S. Ramelow, C.N. Guidry and S.D. Fisk (Lake Charles, LA, USA) 37

Statistical analysis of accidents on the Middle Asia-Centre gas pipelines
A.M. Bartenev, B.E. Gelfand (Moscow, Russian Federation), G.M. Makhviladze and J.P. Roberts (Preston, UK) 57

Resistivity and dimensional stability of high-performance engineering thermoplastic blend of ethylene–propylene random copolymer and isotactic polypropylene membrane in the presence of hazardous haloalkanes
T.M. Aminabhavi, H.T.S. Phayde (Dharwad, India) and J.D. Ortego (Beaumont, TX, USA) 71

Special Issue: Selected Papers presented at the 1994 International Symposium on Heat and Mass Transfer in Chemical Process Industry Accidents, Rome, Italy, 15–16 September 1994

Preface 91

Modelling boiling delay and transient level swell during emergency pressure relief of liquefied gases
B. Boesmans and J. Berghmans (Leuven-Heverlee, Belgium) 93

Experimental and theoretical analysis of flashing water flow through a safety valve
L. Bolle, P. Downar-Zapolski, J. Franco and J.M. Seynhaeve (Louvain-la-Neuve, Belgium) 105

Full-scale depressurization of a section of a riser platform. Measurements and comparison with simulations
T. Evanger, T. Bjørge, B.F. Magnussen (Trondheim, Norway) and A. Bratseth (Stavanger, Norway) 117

Emergency pressure relief calculations using the package: RELIEF
J.S.Duffield, R. Nijsing and N. Brinkhof (Ispra, Italy) 131

A simple blast wave model for bursting spheres based on numerical simulation
B. Vanderstraeten (Leuven-Heverlee, Belgium), M. Lefebvre (Brussels, Belgium) and J. Berghmans (Leuven-Heverlee, Belgium) 145

Measurement of radiation heat flux from large scale flares
T. Bjørge (Trondheim, Norway) and A. Bratseth (Stavanger, Norway) 159

Investigation into an explosion and fire in a mononitrotoluene manufacturing plant
D.P. Cutler and A.K. Brown (Buxton, UK) 169
Numerical simulation of explosion phenomena in industrial environments
T. Huld, G. Peter and H. Städtke (Ispra, Italy) 185
The boiling liquid collapsed bubble explosion (BLCBE): A preliminary model
C.M. Yu and J.E.S. Venart (Fredericton, NB, Canada) 197
Dense gas simulation flows over rough surfaces
W.D. Peters, S.R. Cogswell and J.E.S. Venart (New Brunswick, Canada) 215
Impact of chemical reactions upon heat transfer
V.P. Motulevich (Ashgabat, Turkmenistan) 225
CLOUD: A vapour–aerosol dispersion model accounting for plume 3D motion and heat and mass transfer between phases
S. Banerjee (Santa Barbara, CA, USA), R. Martini (Milano, Italy) and M.J. Pattison (London, UK) 231
Wind tunnel simulation of ammonia gas release transport processes
J.N.E. Papaspyros, P.N. Papanicolaou, E.G. Kastrinakis and S.G. Nychas (Thessaloniki, Greece) 241
Numerical calculations of unsteady heavy gas dispersion
J.C.F. Pereira and X.-Q. Chen (Lisbon, Portugal) 253
A dense vapour dispersion code package for applications in the chemical and process industry
J. Würtz (Ispra, Italy), J. Bartzis (Athens, Greece), A. Venetsanos (Ispra, Italy), S. Andronopoulos, J. Statharas (Athens, Greece) and R. Nijsing (Ispra, Italy) 273
